- Software Applications: Microsoft word, Excel, Spreadsheet
- HTML, CSS, Javascript
- React | Next JS | Node js
- Excellent Communication skills

## LANGUAGE

English  
Nepali

## SUMMARY

Enthusiastic web developer here, good with React, Next.js, Node.js, Express, SQL, and MongoDB. Always up for learning new tech stuff. I'm great at solving tricky problems and turning them into neat solutions. I can handle both front-end and back-end work, making me a useful team player in any project phase. Experience with Microsoft office tools such as Word and Excel.

## EDUCATION

### Bsc (Hons) Computing

Informatics College Pokhara (London Metropolitan University) / Pokhara / November, 2019 - November, 2022  
Graduated with First Class Honours (Grade A)

### Full Stack Software Development (Post Graduate)

Lambton College / Mississauga / January, 2024 - Present

## WORK EXPERIENCE

### Frontend Internship

E.K. Solutions Pvt. Ltd. / Kathmandu, Nepal / August, 2022 - November, 2022

- Learned about different tools/libraries such as Formik, Redux, React Router, and Next JS which aid in React Frontend development.
- Acquired essential knowledge such as Git/Github, QA, SDLC, API, and Postman.

### Web Application Developer

Arambha IT / Pokhara, Nepal / January, 2023 - April, 2023

- Excelled as a React developer: Designed user experiences and crafted interfaces beyond coding.
- Developed not just technical skills but excelled as a problem-solver aligning with company culture and project goals.

## PROJECTS INVOLVED

### eCommerce Web Application

Developed an eCommerce Web Application as a Final Year Project. Technologies used such as React JS, Material UI, Express JS, Redux Toolkit (for state management), MySQL, and other libraries such as Formik, Yup, and Sequelize ORM.
